提交

CSDN @moyikong

看到题目, 知道了是一个lsb隐写题,

反手打开Stegsolve工具

The screenshot shows the Stegsolve application window. The main area displays an 'Extract Preview' window with a hex dump of the image data. The hex dump shows several lines of hex values, with some characters visible in the ASCII column, such as 'I', 'I&', and 'm.'. Below the hex dump, there are two panels: 'Bit Planes' and 'Order settings'. The 'Bit Planes' panel shows checkboxes for Alpha, Red, and Green channels, with bit planes 0-7. The 'Order settings' panel shows 'Extract By' set to 'Row' and 'Bit Order' set to 'LSB First'.

```

然而在里面看了一圈，发现并没有flag等关键词，文件头是png格式，所以save bin下来，保存为1.png
打开后发现是一个二维码

所以直接扫描得到flag
cuntctf{1sb_i4_s0_Ea4y},题目要求以flag{}形式提交，所以最终的flag为：
flag{1sb_i4_s0_Ea4y}
